

Princess Cruises & SLASPA

SLASPA and Princess Cruises collaborate in a Student Visit Vessel Program

The Saint Lucia Air and Sea Ports Authority (SLASPA) in collaboration with Princess Cruises have embarked on an initiative which directly targets students within the various School districts of St. Lucia to visit several Princess Cruises Vessels between November 2007 and April 2008, while the vessels are in Port.

The project – “***School Students - Vessel Program***” affords students the opportunity to tour a selected Princess Cruises vessel during the 2007/08 cruise season where they are exposed to numerous career choices. This project is significant as it plays an important role as a career guide to students in showcasing the diverse professions within the cruise industry.

Princess Cruises, considered one of the most recognized cruise lines in the world, was catapulted to stardom in 1977 when Pacific Princess was cast in a starring role on a new television show called "The Love Boat." The weekly series, which introduced millions of viewers to the still-new concept of a sea-going vacation, was an instant hit and both the company name and its sea-witch logo have remained synonymous with cruising ever since.

SLASPA, Carib Travel and Princess Cruises collaborate for the 2008 Internship Program

The Saint Lucia Air and Sea Ports Authority (SLASPA) in collaboration with Princess Cruises and Carib Travel embarked on an internship program for tertiary level students onboard the Royal Princess, while berthed at Port Castries. The students will be in groups of two and will be provided with an opportunity to understudy existing Princess Cruises crew on a rotational basis in the Bar, Restaurant, Accommodation and Pursers Department during the period February 02 to April 24, 2008. In recognition of the achievement of the students, a graduation ceremony is being planned for April 24, 2008, where the students will be awarded with certificates for their internship.
